

## Catalogue for tests - BMG Bremsmaterial GmbH

Kind of test	Fixed costs	Price / details
Tensile strength test	58,50 €	Addit. 39 € / sample
Impact test	39 €	Addit. 19,5 € / sample
Hardness (Vickers, Brinell, Rockwell)		78 € / sample
Hardness path		117 € / sample
Pin-on-disc Test		75 € / sample
Metallographic polishing (Φ 20 / 40 / 50)		104 € / 130 € / 156 € / per sample
Light microscopy / stereomicroscopy (including images)		104 € / hour
Scanning electron microscopy (including images)		195 € / hour
SEM incl. EDX-analysis (incl. Pictures and spectra)		273 € / hour
UV emission spectroscopy (Fe-Basis, Al-Basis, Cu-Basis, Ni-Basis)		91 € / sample
RFA		156 € / sample
TGA (to 1500 °C)		195 € / sample
X-ray diffractometry (phase determination)		169 € / per measurement Compare / Analysis / Results 130 € / hour
Plasma treatment in various gases (cleaning, functionalization / activation)		65 € / sample
Salt spray test (DIN EN ISO 9227: 2006)	52 €	Addit. 4 € / hour
SO <sub>2</sub> -Test (Kesternich – DIN EN ISO 6988)	52 €	Addit. 4 € / hour
Heat treatment Vacuum furnace (up to 1200 ° C)	39 €	Addit. 156 € / hour
Corrosion rate according to ASTM G28A		260 € / sample
Potentiodynamic measurement		260 € / sample
Reporting		130 € / hour
Link Test J661		450 € / sample
Krauss Tests		Upon request

Further conditions: There is a discount of 10 % for frequently repeating or more than one analysis per year. Please let us check detailed planning together.

All prices include sample preparation (bedding, cutting, cleaning, pictures etc.), support with equipment and standard work in the laboratory. For complex samples with extra geometry, a special fee maybe arrives. BMG, Status June, 2017 (V.1)
